HMR2021 US PCT -
Notice of All...

INTERNAL MEMORANDUM

Date:	September , 2005
To:	George E. Lee, John G. Jurcak, Timothy A. Ayers
From:	Barbara E. Kurys
Subject:	Notice of Allowance - HMR2021 US PCT
Copies:	Ross J. Oehler

We are pleased to report that we have now received a Notice of Allowance (copy enclosed) in the above-identified US Patent Application. We ask that you consider each of the issues raised below.

Issue Fee

The deadline for payment of the issue fee is three months from the date of mailing, i.e., payment is due on or before **November 30, 2005**. This deadline is non-extendible. Failure to pay the Issue Fee will result in abandonment.

In the absence of instructions to the contrary, we will pay the issue fee on or shortly before the deadline.

Assignment (check as applicable)

The application has been recorded as having been assigned as follows:

Inventors/ Assignors:	George E. Lee John G. Jurcak Timothy A. Ayers
Assignee:	Aventis Pharmaceuticals Inc.
Recorded:	October 10, 2003
Reel/Frame:	014040/0904

Any desired change in Assignment status should be effected before the issue fee is paid, or additional fees will be incurred.

Formal Drawings

Formal drawings are not required.

Examiner's Amendment and Statement for Reasons of Allowance

[Summarize where applicable or state not applicable]

We have the following additional comments.

[Include comments, if any, plus:]

Any amendments or objections must be filed not later than the payment of the issue fee to assure their consideration.

Foreign Priority

Priority has not been claimed.

Please contact us immediately if this is in error.

Domestic Priority

This application is a 371 of PCT/US00/24949 filed September 13, 2000, which claims benefit of 60/229,356, filed September 13, 1999, which is now abandoned.

Please contact us if there is any error *vis-a-vis* domestic priority.

Declaration

We have checked the last rule 1.63 declaration and it appears to be in order.

Claims and Specification

If you believe that any additional claims are desirable, please let us know immediately so we can determine whether the proposed claims are patentable, and whether they are better presented by amendment or by a continuation application.

[We wish to note that the claims were narrowed during prosecution. Specifically, we call your attention to the amendments filed , limiting claim(s) to explain substance of limitation].

Please also check the specification once more for errors.

Continuation/Divisional Applications [as applicable]

We note that claim(s) were canceled during the prosecution of this application **[due to a restriction requirement imposed by the Examiner]**. We should now consider whether the cancelled/non-elected claims should be filed in a continuing/divisional case. Such an application must be filed before the issuance of the "parent case" to establish co-pendency. To ensure co-pendency, we recommend that the continuation/divisional case be filed when the issue fee is paid for the present application. Please contact us before the issue fee due date to discuss whether a continuation/divisional case should be filed.

Duty of Disclosure

According to our records the PTO-1449s enclosed with the IDS filed **August 15, 2005** have been initialed A Supplemental IDS filed **August 25, 2005**, have not been initialed, indicating their review by the Examiner. **[[if not initialed] On , we filed a communication with the PTO to remedy this.** After allowance, additional "material information" will be considered by the PTO only if newly discovered (*e.g.*, through citation by a foreign patent office), and then only by petition.

After payment of the issue fee, the principal recourse is to petition to withdraw the application and then file a continuation under rule 1.53.

Please let us know immediately if you have any information which should be disclosed.

Barbara - Please note that we sent them the IDS on 8/15/05 and the Supp. IDS on 8/25/05 - Yet on the Notice of Allowance they only initialed the 8/15/05 Submission. Should we word the IDS different than is done now. Please let me know your input and I will gladly make amends. Thanks Brian

Best Regards
Barbara E. Kurys
